

Famous Guitarist Essay & Power Point Presentation

Specific requirements and due dates will be forthcoming, however the final product will be a 1 to 2 page essay with at least 3 cited references (on a separate page) and a 10-15 slide power point presentation with 2 or 3 listening samples of the artist (i-Tunes). I will allow you to pick a partner or work alone. If you work with a partner choose wisely. **AN OVERDUE PROJECT WILL RECEIVE FEWER POINTS!!!**

Your presentation should include the following.

- 1. Biographical information and musical back round of the guitarist.**
- 2. 2-4 slides of pictures of the guitarist**
- 3. A description of their musical style. This should not be your own opinion but rather what you found in your research.**
- 4. 2-3 listening samples (just use i-Tunes)**
- 5. Your own conclusions of what you think this person's contributions to music were.**
- 6. Reference page citing in proper format at least 3 different sources (final slide)**
- 7. You're speaking to the whole class clearly. Able to hear you from the back of class. It is clear that you practiced you presentation and you're elaborating on what your slides say rather than reading them word for word.**

The names below are just a "starter list". You may report on another guitarist provided you can find **sufficient and reliable** information on that person.
